Equal opportunity to participate in and benefit from programs of the Missouri Department of Conservation is available to all individuals without regard to their race, color, national origin, sex, age, or disability. Questions should be directed to the Department of Conservation, PO Box 180, Jefferson City, MO 65102, 573-751-4115 (voice) or 800-735-2966 (TTY), or to the U.S. Fish and Wildlife Service Division of Federal Assistance, 4401 N. Fairfax Drive, Mail Stop: MBSP-4020, Arlington, VA 22203.

What's New for 2016

- ▶ The free MO Hunting app allows hunters to carry their turkey permits afield, notch permits after a turkey is harvested, and Telecheck their turkeys all from the touchscreen of their Apple or Android mobile device. See Page 4.
- ▶ Turkey hunting regulations have changed for several conservation areas. See pages 8–15.

NOTE: According to rule 3 CSR 10-5.216 of the *Wildlife Code of Missouri*, if you have been convicted of multiple or major violations of the *Code* in the past five years, the Conservation Commission may consider suspending or revoking your hunting, trapping, and/or fishing privileges regardless of any previous court action. The point system the Commission uses to assess *Code* violations is explained at on.mo.gov/1QaCa06.

MCHF Helps You Invest in Your Love of Hunting

Since 1997, thanks to donations from hunters like you, the Missouri Conservation Heritage Foundation has supported dozens of women and youth hunting events, disabled-hunter blinds, wildlife habitat improvements, and Archery in the Schools programs. **With your help, we can do even more.** Consider making a planned gift or other donation, or purchasing a Conservation Heritage License Plate today. You may direct your contributions to the area of conservation you care most about, including shooting ranges and wildlife habitat improvements. For more information, visit mochf.org or call 800-227-1488.

Turkey Seasons

Youth Spring Turkey Hunting Season

Who May Participate:

- ▶ Youth hunters who are age 6–15 on opening day

Season Dates: April 9–10, 2016

Shooting Hours: 1/2 hour before sunrise to sunset Central Daylight Time

Valid Permits:

- ▶ **Resident Spring Turkey Hunting Permit**
- ▶ **Resident Landowner Spring Turkey Hunting Permit**
- ▶ **Nonresident Spring Turkey Hunting Permit**

Note: Landowner permits are valid only on the land for which they are issued. See Page 6 for qualifications.

Youth Season Limit: One male turkey or turkey with visible beard.

Note: Youths who take a turkey during the youth season may not harvest a second bird until April 25. This is because the bird taken during the youth season counts as the first bird for the first week of the regular season.

Regular Spring Turkey Hunting Season

Season Dates: April 18–May 8, 2016

Shooting Hours: 1/2 hour before sunrise to 1 p.m. Central Daylight Time

Valid Permits:

- ▶ **Resident Spring Turkey Hunting Permit**
- ▶ **Resident Landowner Spring Turkey Hunting Permit**
- ▶ **Nonresident Spring Turkey Hunting Permit**

Season Limit: Two male turkeys or turkeys with a visible beard may be taken during the season, with the following restrictions:

- ▶ You may take only one turkey during the first week from April 18–24.
- ▶ If you do not take one during the first week, then you may take two during the second or third week from April 25–May 8, but you may not take them both on the same day.

Note: If you harvest a turkey during a managed hunt, it counts toward your two-bird season limit. See pages 16–17.

Hunter-Education Requirement

All hunters born on or after Jan. 1, 1967, and hunting with a Resident or Nonresident Spring Turkey Hunting Permit must complete an approved hunter-education program and display their card before they can purchase a firearms turkey hunting permit unless:

- ▶ They first purchase an Apprentice Hunter Authorization. See Page 6 for requirements.
- ▶ They are ages 6–15 and will be hunting with a qualified mentor. See Page 5.
- ▶ They have a developmental disability. See rule 3 CSR 10-5.205 of the *Wildlife Code of Missouri*.

Hunters do not need to show their hunter-education card if certification can be verified online. If this is not possible, some hunters will need to contact the Conservation Department to provide proof of hunter-education certification. Once in the database, hunters won't have to submit this information again.

A person must be at least 11 years old to receive hunter-education certification. Hunters using a Resident Landowner Spring Turkey Hunting Permit are exempt from the hunter-education requirement unless they were born on or after Jan. 1, 1967, and are mentoring a firearms hunter who is not hunter-education certified.

For more information or to find a hunter-education class in your area, visit mdc.mo.gov/huntereducation.

How Turkey Season Opening Dates are Set

The current formula for setting spring turkey season strikes a balance between the biology of turkey reproduction and hunters' desires for an earlier season, especially in southern Missouri. As a result, the season begins on the third Monday in April, which during most years produces an earlier season than what was set using the previous formula.

The youth season opens nine days before the regular season, except when that would make it fall over the Easter weekend. In those cases, the season begins the weekend before Easter.

Telecheck your turkey by 10 p.m. on the day it is taken.

General Information

Wild turkeys may be pursued, taken, killed, possessed, or transported only as outlined in this booklet. For complete hunting regulations, refer to the *Wildlife Code of Missouri*, available at sos.mo.gov/adrules/csr/current/3csr/3csr.asp.

The following methods are allowed during spring turkey hunting seasons:

- ▶ Shotguns with shot not larger than No. 4
- ▶ Longbows, recurve bows, or compound bows. Hand-held string-releasing devices, illuminated sights, scopes, and quickpoint sights are allowed.
- ▶ Crossbows
- ▶ Atlatls

The following methods are prohibited:

- ▶ Shotguns capable of holding more than 3 shells in magazine and chamber combined
- ▶ Shot larger than No. 4 (in use or in possession)
- ▶ Rifles, pistols, and other firearms that propel a single projectile at one discharge
- ▶ Any sighting device that casts a beam of light on the game
- ▶ Thermal imagery equipment or night vision equipment (in use or in possession)
- ▶ Recorded calls (in use or in possession)
- ▶ Use of dogs or live decoys
- ▶ Use of bait, which includes grain or other feed placed or scattered so as to attract turkeys. An area is considered baited for 10 days after complete removal of the bait. A hunter can be in violation if they take or attempt to take a turkey by aid of bait where the hunter knows or reasonably should know the area is or was baited. It is illegal to place bait in a way that causes others to be in violation of the baiting rule.

Voiding the Permit: Hunters who harvest a turkey must notch their permit immediately. See Page 20.

Tagging and Checking: As long as you stay with your harvested turkey, you don't need to tag it, but you must keep your notched permit on hand. If you leave your turkey, you must attach a tag. Turkeys must be checked by 10 p.m. on the day taken using the Telecheck system. See pages 20–21.

Note:

- ▶ Any hunter who kills or injures a turkey must make a reasonable effort to retrieve and include it in his or her season limit, but this does not authorize trespass.
- ▶ It is a violation to wantonly leave, abandon, or waste commonly edible portions of game.
- ▶ Anyone using a turkey call to assist another hunter must be properly licensed with either a filled or unfilled spring turkey hunting permit.

MDC's MO Hunting App Makes Permits Easy

This spring, you have a quick, easy, and convenient new option for carrying your permits afield, voiding a permit after harvesting a turkey, and Telechecking your harvest.

The Conservation Department's popular MO Hunting app, which is free and available for Apple and Android mobile devices, was updated in July 2015. Combined with its previous functionality, the updated app allows you to:

- Purchase permits.
- See all the hunting, fishing, and trapping permits you have purchased — even if they were purchased from a traditional vendor, online, or by telephone.
- Carry valid, electronic permits afield.
- Electronically “notch” (void) your turkey permits directly from the app.
- Telecheck your turkey through MO Hunting, using an easy-to-fill form. Telecheck will upload a confirmation number to the app. You can also see turkeys and deer you have Telechecked in the past. **Note:** Wildlife labeling requirements still apply. See Page 20.

To log into MO Hunting, you'll need your Conservation ID number. This nine-digit number can be found on the back of your Heritage Card below the bar code or on any current or previous permit. For help locating your Conservation ID number, call 573-751-4115 during regular business hours and ask for the Permits office, or go to on.mo.gov/1QraPFG.

MO Hunting is available for free in the Google Play and iTunes stores. You can also get MO Hunting and learn more about the app at mdc.mo.gov/mobile/mobile-apps.

Spring Turkey Permits

Resident Spring Turkey Hunting Permit

Age 16 and older \$17
 Age 6–15 \$8.50

Resident Landowner

Spring Turkey Hunting Permit Free; see Page 6

Nonresident Spring Turkey Hunting Permit

Age 16 and older \$190
 Age 6–15 \$8.50

Note: Youth age 6–15 are not required to be hunter-education certified. If the youth is hunter-education certified and hunting on a resident or nonresident spring turkey permit, he or she may hunt alone. If the youth is not hunter-education certified, he or she must be in the immediate presence of a properly licensed adult who has a valid hunter-education certificate card or was born before Jan. 1, 1967. The adult may not hunt turkeys during the youth spring turkey season.

- ▶ “Immediate presence” means close enough for normal conversation, without shouting.
- ▶ “Properly licensed” means a valid filled or unfilled spring turkey hunting permit.
- ▶ “Adult” means someone age 18 or older.

Regardless of age, the youth must be capable of holding, aiming, and shooting the firearm by himself or herself.

Resident landowners or lessees born after Jan. 1, 1967, accompanying youths on the landowner’s property or property on which the lessee is residing must be hunter-education certified.

Who may purchase resident permits?

- ▶ Any person who does not claim resident privileges in another state or country, and whose actual residence and legal permanent home address are both in Missouri, and have been for at least 30 days before applying for the permit. Owning real estate or attending a Missouri school does not in itself make you a legal resident.
- ▶ Missouri residents employed by the United States in the District of Columbia or serving in the U.S. armed forces. (Immediate family members who reside with them also may purchase resident permits.)
- ▶ All members of the U.S. armed forces stationed and residing in Missouri on permanent change-of-station status and immediate family members residing with them.
- ▶ Any honorably discharged military veteran having a service-related disability of 60 percent or greater, or who was a prisoner of war during military service; must carry certified statement of eligibility from the U.S. Department of Veterans Affairs while hunting or purchasing permits.
- ▶ Any member of the U.S. military currently assigned as a patient to a Warrior Transition Brigade, Warrior Transition Unit, or a military medical center; must carry orders showing assignment to a Warrior Transition Brigade,

SUNRISE AT JEFFERSON CITY, MO. Central Daylight Time

This table is for Jefferson City and points on the same longitude north or south. For locations east, subtract one minute from the table for each 13 1/2 miles (airline) of distance. For locations west, add one minute for each 13 1/2 miles. Or, for the sunrise and sunset times anywhere in the United States, see the U.S. Naval Observatory website: www.usno.navy.mil/USNO/astronomical-applications.

Warrior Transition Unit, or admissions verification to a military medical center while hunting or purchasing permits.

- ▶ Nonresidents who are registered students attending a public or private secondary, post secondary, or vocational school in Missouri and who live in Missouri while attending school; must carry evidence of a Missouri residence and student status while hunting. **Note:** Nonresident students who qualify for resident permits must purchase them at Conservation Department offices.
- ▶ Immigrants who possess an I-551 Resident Alien Card and who do not claim resident privileges in another state or country, and whose actual residence and legal permanent home address are both in Missouri, and have been for at least 30 days before purchasing a permit.

Purchasing Permits

You may purchase turkey hunting permits:

- ▶ Over the counter from any permit vendor. Buy early to avoid long lines. No surcharges will be assessed.
- ▶ Online anytime at mdc.mo.gov/permits. Use your credit card to pay. No surcharges will be assessed. Print your permit at home and have it in hand immediately.
- ▶ **New!** From your smartphone using the free MO Hunting app (see Page 4). Use your credit card to pay. No surcharges will be assessed. Your permit will appear on the app immediately after purchase.
- ▶ By telephone at 800-392-4115. Use your credit card and pay a \$2 surcharge. Allow 10 days for delivery.

Note: No-cost resident landowner permits also are available. See Page 6 for details.

Resident Landowner Permits

No-Cost Resident Landowner Permits

All turkey hunters, including landowners and lessees, must have a valid turkey hunting permit. You qualify for no-cost spring turkey hunting permits if you are a Missouri resident age 6 or older, who:

- ▶ Owns at least 5 acres, or
- ▶ Leases and lives on at least 5 acres, or
- ▶ Lives in the home with a qualifying landowner or lessee.

You may obtain your no-cost resident landowner permits using any of the methods below.

- ▶ Over the counter from any permit vendor. Go early to avoid long lines. No surcharges will be assessed.
- ▶ Online anytime at mdc.mo.gov/permits. Use your credit card to pay. No surcharges will be assessed. Print your permit at home and have it in hand immediately.
- ▶ **New!** From your smartphone using the free MO Hunting app (see Page 4). Use your credit card to pay. No surcharges will be assessed. Your permit will appear on the app immediately after purchase.
- ▶ By telephone at 800-392-4115. Use your credit card and pay a \$2 surcharge. Allow 10 days for delivery.

Please have on hand the following information:

- ▶ Your Conservation ID number, Heritage Card number, Social Security number, or driver's license number
- ▶ The county where your land is located
- ▶ The number of acres you own or lease and reside on

Note: Each hunter may harvest only two turkeys during the spring season. You may not harvest additional turkeys using no-cost landowner permits. All landowner hunting permits are valid *only* on the land for which they are issued. You must purchase permits to hunt on land you do not own or lease and reside on.

Coyotes may not be chased, pursued, or taken during daylight hours from April 1–17, 2016. During the regular spring turkey season, coyotes may be taken using legal spring turkey hunting methods by hunters holding an unfilled spring turkey hunting permit and a Resident Small Game Hunting Permit or a Nonresident Furbearer Hunting and Trapping Permit.

Definitions for Landowner Permits

Resident landowner: Any Missouri resident who owns at least 5 continuous acres, or members of his or her immediate household. In the case of corporate ownership, only registered officers of the corporation and members of their immediate households can qualify to receive no-cost permits, and they are not required to reside on the land. People who own stock in a corporation (shareholders) do not qualify under this definition.

Lessee: Any Missouri resident who resides on and leases at least 5 continuous acres owned by others, or members of his or her immediate household.

Immediate household member: Someone, related or unrelated, who has lived in the home with a qualifying landowner or lessee for at least the last 30 days. Family members who live elsewhere do not qualify.

Note: Hunters must be at least 6 years old to obtain landowner permits.

Apprentice Hunter Authorization

To help introduce adults to hunting, the Conservation Department allows hunters age 16 and older who are not hunter-education certified to hunt with firearms, as long as they:

- ▶ First purchase the Apprentice Hunter Authorization for \$10;
- ▶ Then purchase a firearms hunting permit for the season they want to hunt, for example, a Resident Spring Turkey Hunting Permit; and
- ▶ Hunt in the immediate presence of a properly licensed hunter 18 years old or older who is hunter-education certified or was born before Jan. 1, 1967. The mentor must have a filled or unfilled permit for the prescribed season. "Immediate presence" means close enough for normal conversation, without shouting.

Note: The Apprentice Hunter Authorization can be purchased twice, and it allows the holder to obtain firearms permits throughout the permit year. After the second purchase, the apprentice hunter will be required to become hunter-education certified if he or she wants to continue purchasing firearms permits.

Hunting Outlook Good for 2016 Spring Season

During the past five years, turkey production in Missouri has improved considerably. Although turkey abundance in the Show-Me State remains below the peak that occurred in the early 2000s, turkeys have begun to rebound from the poor hatches that plagued the population from 2007–2010. Turkey numbers are increasing throughout most of the Ozarks as well as in portions of south-western and north-central Missouri.

Of particular significance to hunters is the hatch that occurred two years ago. To the delight of turkey enthusiasts, much of Missouri experienced good production in 2014. As a result, the number of jakes harvested during the 2015 spring season was up in all regions. A large number of unharvested jakes in 2015 will result in an increased number of 2-year-old gobblers for the 2016 season, especially in northern Missouri, which experienced the state's best turkey production in 2014.

Transitional Times

Missouri's turkey population has undergone a transition during the past several decades. In the 1970s and 80s, when the recently-restored population was expanding rapidly, people often reported seeing flocks of turkeys that numbered well into the hundreds. During that time, production was extremely high as turkeys took advantage of vacant, highly suitable habitat. But, a basic ecological principle eventually caught up with Missouri's turkeys. As wildlife populations grow, factors that limit their size exert ever-greater influence. Habitats become crowded, predators find easy prey, and disease spreads more quickly. By increasing mortality, decreasing production, or doing both,

NOPPADOL PACOTHONG

each limiting factor puts the brakes on an expanding population.

Missouri's wild turkeys are no exception. Although an increase in turkey numbers above current population levels is possible, it's unlikely turkey numbers will increase to the peak populations observed following restoration. Wild turkey populations are dynamic, and turkey reproductive success is rarely constant. In the future, hunters should expect to see fluctuations in turkey abundance. There will be periods when poor production reduces turkey numbers for several years and periods when improved production will increase numbers.

A Comprehensive Approach to Wild Turkey Management

The Conservation Department takes a comprehensive approach to managing the state's turkey population. A range of biological information is collected annually to monitor trends in turkey production, abundance, and population age-structure. The Department has conducted a number of wild turkey research projects, including an ongoing study in northern Missouri. Data from these studies provide important information used to make management decisions. The Department also surveys thousands of hunters each year to learn about hunter opinions, success, and satisfaction. The Department's approach to turkey management is guided by its *Wild Turkey Harvest Management Plan*. Along with management objectives — such as ensuring the long-term well-being of the population, allowing harvest within sustainable limits, and providing opportunity to enjoy the resource — the plan outlines several criteria that are evaluated each year to establish hunting regulations.

Looking Ahead to the 2016 Season

Spring turkey harvest has increased each year in Missouri for the past four years, and the 2016 harvest is expected to continue this trend. A good number of 2-year-old gobblers resulting from the 2014 hatch and carry-over from other years of recent improved production should result in good hunting opportunities for 2016. The spring turkey harvest in Missouri continues to be among the highest in the nation each year, and the 2016 season should be no exception.

Turkey Hunting Regulations on Areas Managed or Owned by the Conservation Department

This table is intended to inform hunters of opportunities for hunting wild turkeys on public land managed or owned by the Conservation Department.

Turkey hunting is only allowed on Department areas that are listed in the table. If an area that is owned or managed by the Conservation Department is not listed, turkey hunting is not allowed. For hunting opportunities on public land that is not owned or managed by the Conservation Department, contact the appropriate agency.

For maps and more details of areas listed on the following pages, contact the regional office or visit mdc.mo.gov/atlas.

Regulation key for table

1. Statewide turkey seasons and limits apply.
2. Longbows, recurve bows, compound bows, atlatls, and crossbows may be used. Turkey hunting with firearms is prohibited. All other statewide turkey seasons and limits apply.
3. Only nontoxic shot may be used.
4. Managed hunt. See pages 16–17 for details.

Key

CA = conservation area

SP = state park

¹ Odds of being selected are based on last year's drawings.

² Managed hunt occurs in a designated area; statewide regulations apply outside the designated area.

³ Hunters permanently confined to a wheelchair may bypass the random drawing but do not displace others in the drawing. Send

a request along with a statement from a licensed physician to: Managed Turkey Hunts, Missouri Department of Conservation, PO Box 180, Jefferson City, MO 65102-0180. Requests must be received by Feb. 29.

⁴ Do not apply if you can't attend the pre-hunt orientation.

⁵ Because odds are for the previous year, 100 percent odds do not guarantee you will be drawn.

Managed Turkey Hunt Application Worksheet

Hunt No.: _____

Method: _____

Location: _____

Date: _____

Hunter **Conservation ID number(s)** (nine-digit number on your hunting or fishing permit, or on the **back** of your Conservation Heritage Card below the bar code):

1. _____

2. _____

3. _____

Valid Permits: Resident Spring Turkey Hunting Permit,
Nonresident Spring Turkey Hunting Permit

Bag Limit: 1 male turkey or turkey with visible beard.

Note: A turkey taken at a managed hunt counts toward the two-bird season limit. For example, if you take a turkey during a managed hunt before April 25, you may not harvest another turkey during the first week of the regular season.

Hunter Quota: See chart on Page 16 for the number of hunters who will be drawn to participate in each hunt.

Odds: See chart on Page 16 for the success rate for last year's drawings.

When to Apply: Jan. 8–Feb. 29

Points to remember

- ▶ To participate in a youth-only managed hunt, you must be 11–15 years of age.
- ▶ To participate in a non-youth managed hunt, you must be at least age 11. You also must be hunter-education certified or exempt.
- ▶ If you cannot attend, another hunter cannot take your place. Only those hunters who applied and were drawn may attend.
- ▶ Some managed hunts require hunters to attend a mandatory pre-hunt orientation. If you cannot attend the orientation, do not apply.
- ▶ Individuals not drawn for a managed spring turkey hunt may not accompany a hunter who was successfully drawn.
- ▶ ATVs are prohibited on managed spring turkey hunt areas.
- ▶ Hunters may apply for only one hunt. They may apply for that hunt individually or as a group of two or three hunters. Those applying for a youth-only hunt may apply singly or with one other youth.

To apply, complete the following steps.

Step 1: Designate one member of your group to go online. That person **must** have ready the following information:

- ▶ The two-digit number for the preferred hunt
- ▶ The nine-digit Conservation ID number of each hunter in the group. If you need an ID number, call 573-751-4115 during regular business hours to have one assigned. **Note:** A Social Security number is not the same as a Conservation ID number. Your Conservation ID number is located on your Conservation Heritage Card under the bar code and on your permit.

Step 2: Complete the worksheet on this page **before** applying so you will have all the information ready.

Step 3: Go online at mdc.mo.gov/managedhunt. If you correctly enter all the required information, you will receive a message confirming your application. To change or delete your application, visit the same website and click "Change or Delete Your Hunt."

To find out if you've been selected

From March 14 through May 8, go online. Be prepared to enter your nine-digit Conservation ID number (the same ID number you used when you applied).

All successful applicants will receive by mail an area map and information regarding the hunt. We must have your correct address to send the information. If your address changes, call the Department during business hours at 573-751-4115.

Youth-Only Managed Hunts

The 11 youth-only managed hunts are for youth ages 11–15. Apply online for the hunts. Unlike the regular hunt application, youth may apply singly or with one other youth. Successful applicants will be notified by mail. Youths who apply for a youth-only hunt may not apply for any other managed hunt.

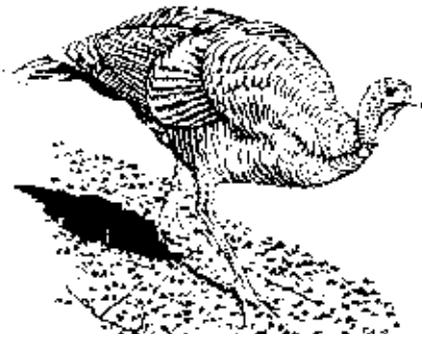

Hunter-education certification is required for all successful youth applicants. Minimum age to enroll in a hunter-education course is 11. Hunter-education certification is not required to apply for these youth-only managed hunts, but must be achieved before the pre-hunt orientation, or in the case of Caney Mountain, the actual hunt.

All youth hunters must be accompanied by an adult sponsor (age 18 or older) who is hunter-education certified or exempt. The adult sponsor must have a filled or unfilled spring turkey hunting permit and may not hunt during the managed hunt. The sponsor must attend the pre-hunt orientation if one is required. Department staff will try to find a sponsor for a youth who does not have one, but a sponsor cannot be guaranteed.

How to Tell a Gobbler from a Hen

Gobblers are large birds with a black body and long beard. Hens sometimes have beards, but color and size distinguish them from gobblers. Hens are brown birds with blue heads. They are smaller than gobblers. Bearded hens produce young and help increase the turkey population. They should not be killed, but any turkey with a visible beard is legal. Hens without beards are illegal to shoot during the spring turkey seasons.

HEN

Breast feathers buff-tipped

Female

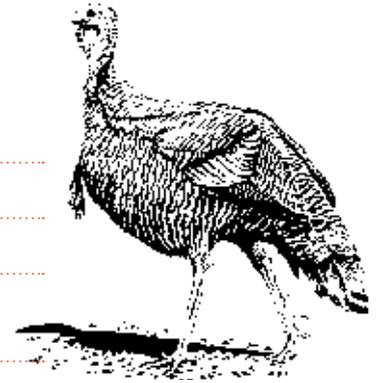

Male

Breast feathers black-tipped

GOBBLER

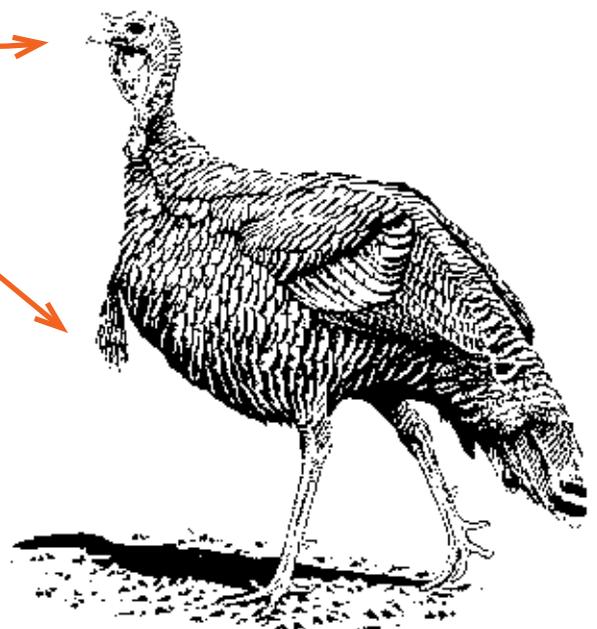

| | Female | Male |
|---------------|------------------|--------------------------|
| HEAD | Mainly blue | Mainly red |
| BEARD | Usually no beard | Long tassel-like |
| BREAST | Appears rusty | Appears black |
| SPURS | No spurs | Usually 1/2 inch or more |

JUVENILE GOBBLERS have spurs less than 1/2 inch long and a beard less than 6 inches long.

Basic Rules for Safe Turkey Hunting

- ▶ Identify a turkey's head and beard before aiming.
- ▶ Never shoot at sound or movement. Assume it is another hunter until you can clearly see a turkey's head and beard.
- ▶ Wear hunter orange when walking through the woods.
- ▶ Use hunter orange to identify your hunting location.
- ▶ Wrap a bagged turkey or decoy in hunter orange when transporting it.
- ▶ Dress defensively. Never wear red, white, blue, or black while turkey hunting.
- ▶ Be sure of your target and what lies beyond.
- ▶ Never follow the sound of a gobbling turkey or attempt to sneak up on turkeys. Always call turkeys to you.
- ▶ Sit against a large tree or other natural barrier to shield yourself from hunters approaching from the rear.
- ▶ Shout "STOP" when another hunter approaches. Don't move, wave, whistle, or make turkey calls to get their attention.

Feral Hogs

Feral hogs destroy habitat, eat wildlife, compete with native animals for food, degrade water quality, and spread diseases to people, pets, and livestock. They are a menace that must be eradicated.

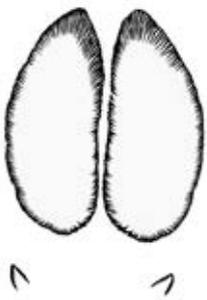

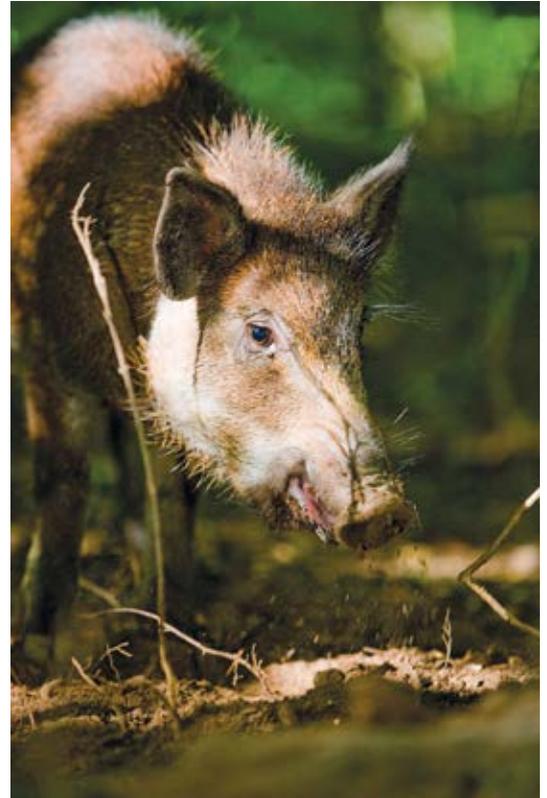

A feral hog is defined as any hog, including Russian and European wild boar, that is not conspicuously identified by ear tags or other identification and is roaming freely on public or private land without the landowner's permission.

It is illegal to release feral hogs on public land or private land that is not fenced to contain them. **If you see someone releasing hogs, please report them immediately to your local conservation agent or call Operation Game Thief at 800-392-1111.**

The Conservation Department and the USDA Animal and Plant Health Inspection Service are working together to eradicate feral hogs in Missouri. Hunters shooting feral hogs complicate efforts to remove these pests. Hogs are social animals that travel in groups called sounders. Shooting one or two hogs scatters the sounder and makes trapping efforts aimed at catching the entire group at once more difficult. If you encounter a feral hog, please call the number or visit the website below to report it as soon as possible. If you are experiencing feral hog damage on your property, trapping assistance is available by contacting the phone number or visiting the website below.

With your help, we can eliminate these dangerous, destructive pests from Missouri.

Report Feral Hog Sightings
573-522-4115, ext. 3296
mdc.mo.gov/feralhog

Feral hog tracks are distinguished from deer tracks by the rounded or blunt tip of the toes. The toes of a hog track on a firm surface tend to be more splayed than a deer track. A hog track also appears rounded or square; deer tracks appear heart-shaped and have more sharply pointed toes. The presence of dew claw marks with feral hog or white-tailed deer tracks is not an indicator of sex as is commonly thought. Dew claw marks simply mean that the animal was running or stepping on a soft surface.

We Need Your Help!

Please participate in the Department's wild turkey brood survey.

The Conservation Department needs volunteers to participate in its wild turkey brood survey. Using cards provided, participants record observations of hens and poults throughout the summer. The information gathered is used to gauge the hatch of Missouri's wild turkey population.

It's easy to participate. Just send an email to **rachel.boss@mdc.mo.gov**. Write "Wild Turkey Brood Survey" in the subject line, and don't forget to include your name and

mailing address. You can also send your name and address to:

Wild Turkey Brood Survey
Missouri Department of Conservation
3500 East Gans Road
Columbia, MO 65201

We'll send you three observation cards on which to record your turkey sightings during June, July, and August. At the end of each month, just drop the postage-paid card in the mail, and we'll take care of the rest.

After the Harvest

Whether you're using a traditional paper permit or the new MO Hunting app, after harvesting a turkey, you must notch your permit and Telecheck your bird. Here's how.

Notch It

Immediately after harvesting a turkey, you must notch your permit.

- To notch a paper permit, tear a small notch in the month and day of harvest on the permit.
- **New!** To notch a permit using the MO Hunting app, simply select the permit you wish to use from the list in the app, and follow the short, easy prompts on the screen.

Once you notch your permit, you may transport your turkey within Missouri.

Tag It If You Leave It

As long as you stay with your turkey, you don't need to tag it. But if you leave your turkey, you must attach a tag.

- If you have a paper permit, you can simply attach your notched permit to the turkey's leg. We recommend sealing the permit in a zip-top bag and attaching the bag with string, wire, or tape.
- **New!** If you're using the MO Hunting app, you must attach a label with your full name, address, permit number, and date of harvest to the turkey's leg.

Check It

You must Telecheck your turkey by 10 p.m. on the day of harvest.

- If you're using a paper permit, follow the Telecheck instructions on Page 21. Write the confirmation number provided by Telecheck on your permit.
- **New!** If you're using the MO Hunting app, select your notched permit from the list on the screen, tap "Telecheck," and follow the prompts. Telecheck will upload a confirmation number directly to your mobile device.

After you've reported to Telecheck, you may process your turkey and transport it out of state.

Additional Information

- ▶ Until checked, turkeys must have the head and plumage intact.
- ▶ Notching voids the permit. Do not notch your permit until you harvest a turkey.
- ▶ All turkeys must be checked before they are removed from Missouri.
- ▶ Only the person who harvested the turkey may possess and transport the turkey before checking.
- ▶ After checking, turkeys may be possessed and transported by anyone, but must be labeled with the taker's full name and address, date taken, and Telecheck confirmation number.

How to Use Telecheck

All turkeys must be Telechecked online, using the MO Hunting app, or by telephone. If you are calling Telecheck on your cellphone, be sure you have a clear signal. If the signal is spotty, move closer to a major highway, go to higher ground, or wait until you get to a land-based line to call. Avoid calling in areas with loud background noise.

You do not need to Telecheck immediately after harvesting a turkey. You can transport unchecked game within the state, as long as you have notched your permit. **You have until 10 p.m. on the day taken to check your turkey.**

Telecheck Using the MO Hunting App

Step 1: Select your notched permit from the list.

Step 2: Tap "Telecheck."

Step 3: Follow the prompts on the screen.

Telecheck will upload a confirmation number to your mobile device.

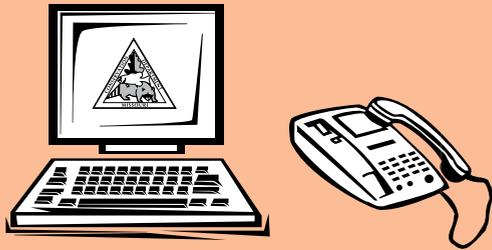

Telecheck Using a Phone or the Internet

Step 1: Before calling the toll-free number or going online, find your Telecheck ID number on your permit. Also get a pen so you will be able to write your Telecheck confirmation number on your permit.

Step 2: Fill out the orange form to the right, which contains the information you will be asked when you use Telecheck.

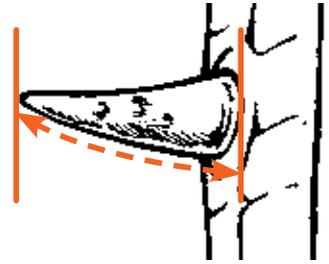

Step 3: Call 800-314-6828 or visit mdc.mo.gov, then follow the instructions. If you're using a phone, speak clearly and slowly. You can use Telecheck between 6 a.m. and 10 p.m.

Step 4: After you have provided the required information, you will be given a confirmation number that verifies you have legally checked your turkey. **Write this number on the permit.** You have now completed Telecheck and can process your turkey.

**Telecheck
your turkey at:
800-314-6828
or mdc.mo.gov**

How to Measure Spurs

Spur length measurements help biologists keep track of the age structure of the adult turkey population. Please accurately measure your turkey's spur before checking it. This will ensure biologists place your turkey in the correct age class. A difference in spur length of less than 1/8 of an inch can be important, so please take an accurate measurement. If you don't have a ruler, use the signature line of your permit, which is 2 inches long with a 1-inch mark in the middle.

Start at the outside center from the point where the spur protrudes from the leg scales, and measure to the tip of the spur.

▶ Your Telecheck ID number:

▶ Turkey type:

- Gobbler
- Juvenile gobbler (see Page 18 for how to identify a juvenile)
- Bearded hen
(see Page 18 for details on sexing a turkey)

▶ Spur length (gobblers only)

The signature line on your permit is 2 inches long (1-inch mark in the middle). Use it to measure the spur. See above for details.

- Less than 1 inch
- 1 inch or more

▶ Beard length

Your permit is 6 inches long and should be used to measure the beard.

- Less than 6 inches
- 6 inches or more

▶ County of harvest

Wildlife Code of Missouri — Turkey Hunting Regulations

3 CSR 10-7.455 Turkeys: Seasons, Methods, Limits

(1) Turkeys may be pursued, taken, killed, possessed, or transported only as permitted in this rule.

(A) Spring Season. Spring season annually will begin on the third Monday in April. A person possessing the prescribed turkey hunting permit may take turkeys according to the season length and bag limit established annually by the Conservation Commission. Turkeys may be taken only by shotgun, with shot no larger than No. 4, atlatl, crossbow, or bow; without the use of dogs, bait, electronic calls, or live decoys; from one-half (1/2) hour before sunrise to 1:00 p.m. Central Daylight Time (CDT). Possession of electronic calls or shotshells loaded with shot larger than No. 4 is prohibited while hunting turkeys.

(B) Fall Firearms Season. Fall season annually will be October 1 through October 31. A person possessing the prescribed turkey hunting permit may take two (2) turkeys of either sex during the season. Turkeys may be taken only by shotgun, with shot no larger than No. 4, atlatl, bow, or crossbow; without the use of dogs, bait, electronic calls, or live decoys; from one-half (1/2) hour before sunrise to sunset in all counties except: Dunklin, McDonald, Mississippi, New Madrid, Newton, Pemiscot, and Scott. Possession of electronic calls or shotshells loaded with shot larger than No. 4 is prohibited while hunting turkeys. A person, while in the act of pursuing or hunting turkey on a fall firearms permit, shall not have both a firearm, and an atlatl, bow, or crossbow on his/her person with the following exceptions (Firearms possessed under these exceptions may not be used to take wildlife while hunting with an atlatl, bow, or crossbow. Proof of this exception must be carried while hunting.):

1. Any person who has been issued a valid concealed carry permit and such permit has not been suspended, revoked, canceled, or denied may carry concealed firearms on or about his/her person while hunting; and
2. Any qualified law enforcement officer or qualified retired law enforcement officer as defined in the Federal Law Enforcement Officers Safety Act (18 USC 926B or 18 USC 926C) may carry concealed firearms on or about his/her person while hunting.

(C) Fall Archery Season. A person possessing the prescribed archer's hunting permit may take two (2) turkeys of either sex from September 15 through January 15, excluding the dates of the November portion of the firearms deer season. Turkeys may be taken only by atlatls, bows, and crossbows; without the use of dogs, bait, electronic calls, or live decoys; from one-half (1/2) hour before sunrise to one-half (1/2) hour after sunset. Possession of electronic calls is prohibited while hunting turkeys. An archer, while in the act of pursuing or hunting turkey on an archer's

permit, shall not have a firearm on his/her person with the following exceptions (Firearms possessed under these exceptions may not be used to take wildlife while hunting with an atlatl, bow, or crossbow. Proof of this exception must be carried while hunting.):

1. Any person who has been issued a valid concealed carry permit and such permit has not been suspended, revoked, canceled, or denied may carry concealed firearms on or about his/her person while hunting; and
2. Any qualified law enforcement officer or qualified retired law enforcement officer as defined in the Federal Law Enforcement Officers Safety Act (18 USC 926B or 18 USC 926C) may carry concealed firearms on or about his/her person while hunting.

(D) Youth Spring Season. The two- (2-) day youth spring season will begin annually on the Saturday nine (9) days prior to the Monday opening of the spring season, except that when the youth season would overlap with Easter weekend the season will open on the Saturday prior to Easter weekend. Any person possessing the prescribed turkey hunting permit and who is at least six (6) but not older than fifteen (15) years of age on the opening day of the youth spring season may take only one (1) male turkey or turkey with visible beard during the youth spring season. A turkey harvested during the youth spring season will count towards an individual's spring season bag limit; individuals hunting under the prescribed turkey hunting permit may not harvest a second bird during the first week of the spring season. Turkeys may be taken only by shotgun with shot no larger than No. 4, atlatl, crossbow, or bow; without the use of dogs, bait, electronic calls, or live decoys; from one-half (1/2) hour before sunrise to sunset. Possession of electronic calls or shotshells loaded with shot larger than No. 4 is prohibited while hunting turkeys.

(2) Hunters who take a turkey shall void their permit immediately by notching the month and date of harvest and shall keep the turkey separate or distinctly identifiable from turkeys taken or possessed by another. When the turkey is not personally attended and prior to reporting through the Telecheck Harvest Reporting System, the voided permit shall be attached to the turkey. Turkeys may be possessed and transported only by the taker until reported through the Telecheck Harvest Reporting System. All turkeys taken shall be accurately reported by the taker or in the taker's immediate presence through the Telecheck Harvest Reporting System by 10:00 p.m. on the day taken. The Telecheck confirmation number shall be recorded immediately on the turkey hunting permit. The head and plumage of the turkey shall remain intact until the turkey is reported through the Telecheck Harvest Reporting System. All turkeys shall be reported through the Telecheck Harvest Reporting System prior to processing or being removed from the state. After reporting

through the Telecheck Harvest Reporting System, turkeys may be possessed, transported, and stored by anyone when labeled with the permit or any label that includes the full name and address of the taker, date taken, and Telecheck confirmation number.

(3) Bait shall mean grain or other feed placed or scattered so as to constitute an attraction or enticement to turkeys. An area shall be considered baited for ten (10) days following complete removal of the bait.

(4) A resident landowner or lessee as defined in 3 CSR 10-20.805, possessing a landowner turkey hunting permit, may take and possess turkeys in accordance with this rule on his/her land or, in the case of the lessee, on the land on which s/he resides and shall report the turkeys through the Telecheck Harvest Reporting System as required in this rule.

(5) Any person who kills or injures any wild turkey shall make a reasonable effort to retrieve the turkey and include it in his/her season limit.

(6) Turkeys (or parts thereof) reported in accordance with established procedures, when labeled with the full name and address of the taker, the date taken, and the Telecheck confirmation number of the turkey, may be possessed, transported, and stored by anyone.

(7) In accordance with section 270.400, RSMo, feral hogs (any hog, including Russian and European wild boar, that is not conspicuously identified by ear tags or other forms of identification and is roaming freely upon public or private lands without the landowner's permission) may be taken in any number during the spring firearms turkey season and youth spring season only by the holder of a valid, unused turkey hunting permit; and only by methods and times prescribed for taking turkeys. During the fall firearms turkey season, feral hogs may be taken only by the holder of a valid, unused turkey hunting permit or a small game hunting permit; and only by methods prescribed in Chapter 7 for taking wildlife, and without the use of bait. Other restrictions may apply on public lands. Resident landowners or lessees as defined in this Code may take feral hogs on their own property at any time, by any method, and without permit.

Hunting Safety is No Accident

If you are involved in a firearms-related hunting incident, the law requires that you identify yourself and render assistance to the victim. Failure to do so is a Class A misdemeanor.

There were three nonfatal and one fatal firearms-related hunting incidents during the 2015 spring turkey season. As you will see, simple carelessness and failure to positively identify game can result in tragedy. Don't make the same mistakes these hunters made.

April 22 — Two hunters were hunting together but decided to split up in an attempt to surround a group of turkeys in a field. The shooter spotted what he thought was the red head of a turkey and fired, hitting the victim in the lower parts of his body.

April 28 — A hunter set up in an area where he had seen a gobbler and a hen move through. Two other hunters moved into the same area and set up against the base of a tree. When the lone hunter heard what he thought was a hen calling, he moved to his knees to get a better look and spotted what he thought was the red head and black body of a gobbler. He fired a shot, striking one of the hunters from the other hunting party.

May 1 — Two hunters were sitting in a hunting blind calling turkeys. When a gobbler arrived, the hunter on the right shouldered her shotgun. The turkey moved to the left, preventing the shooter from getting a shot. When the shooter attempted to move to another window in the blind, she fell backwards. Her shotgun went off, killing the other hunter.

May 1 — A hunter who was set up behind his house was calling to a bird that was out of range. He heard a shot and felt a blow to his back and head. The hunter let out a yell and turned around, but couldn't see anyone. The shooter is still unknown.
